2. Public meeting

The meeting on November 15th was held to be a success, with 30 local residents listening to a great presentation from Ian Crawley, and asking questions afterwards. A number of people had taken away membership application forms.

3. Actions

After discussion of a revised project timeline, the following actions were agreed:

- AM to circulate Ian Crawley's presentation to those who hadn't seen it
- AM to research housing associations involved with the nearest CLTs, to add to the list already provided by the District Council
- As part of planning a selection process, AM to ask Ian Crawley what a good housing association would look like
