2. Actions

After discussion of the draft housing association letters sent by Ian Crawley, the following actions were agreed:

- AM to customise the covering letter after checking with Ian Crawley which of three possible interview dates he could attend, and confirming with Two Rivers Housing the supposition that a quick expression of interest from housing association officers would have to be followed up later by a formal commitment from the housing association board
- TW and JM to customise the questionnaire to go to five housing associations with the letter
- AM to discover how far Eastington CLT had got with their plans
